All - Assessment Task 1: Discourse Analysis Report

GOAL:	To develop critical and discourse analysis skills in relation to a relevant social policy.	
PRODUCT:	Report	
FORMAT:	<p>Policy decisions at various levels impact on the life chances, experiences and abilities of individuals, families, groups, and whole communities. As a social worker, your practice will be contextualised within a social policy framework as it shapes the nature of services you provide to individuals, families, groups, and communities. Using an aspect of professional practice from your own experience either on field placement, or from your own human services-related paid work, you are required to write a discourse analysis report that will:</p> <ol style="list-style-type: none"> 1. Critically analyse a relevant policy as it impacts on service users and on social work practices using the template provided, and which employs an approach to critical discourse analysis based on Carol Bacchi's framework; 2. Analyse the underlying policy agenda from a critical perspective, outlining what assumptions are evident about the nature of social relations or populations within society; 3. Outline how social policies have impacted on the social service agency policies and practices impacting service users; 4. Analyse how social workers could practice ethically and transcend the political agendas of government or potentially oppressive social policies. <p>It is suggested that you select a social policy initiative relevant to your current social service work context, or your field education placement agency, however, this is not essential. Choose an area of social policy that interests you, or an area about which you have some prior knowledge. Several social policies will be placed on Blackboard and you may also choose to analyse one of these, if you wish.</p>	
CRITERIA:	No.	Learning Outcome assessed
	1	Demonstrate critical awareness of a relevant social policy; its policy discourses and agendas and inherent assumptions; and its impacts on service users and work practices at an organisational level.
	2	Articulate how social work ethics can be drawn upon and demonstrated in practice that could transcend the political agendas of governments or potentially oppressive social policies.
	3	Write with clarity (expression, correct grammar, spelling and punctuation), logically structured, coherently argued analysis, and appropriately supported by relevant published literature.
	4	Assessment criteria are mapped to the course learning outcomes. 1 2 3 4

All - Assessment Task 2: Simulated Social Policy Advocacy Tutorial Presentation

GOAL:	To develop policy advocacy presentation skills.												
PRODUCT:	Oral

Social workers take part in the development of, and advocating for, changes to social policy, utilising their critical analysis skills and an understanding of the direct links between personal experience and structural impediments on the life chances of those populations. Draw from your discourse analysis report (Task 1) and distil relevant information for a 10-15 minute presentation that meets the following criteria.												
CRITERIA:	<table border="1"><thead><tr><th>No.</th><th>Learning Outcome assessed</th></tr></thead><tbody><tr><td>1</td><td>Demonstrate compassion and empathy for, and an ability to work professionally with your chosen population group.</td></tr><tr><td>2</td><td>Through the application of a structural analysis of the policy initiative discuss its impact on service users.</td></tr><tr><td>3</td><td>Advocate for at least one change that could be made to the social policy that aligns with social work ethics and if implemented by government could potentially transcend oppressive conditions impacting on service users.</td></tr><tr><td>4</td><td>Demonstrate high quality oral presentation skills, engaging the audience with compelling non-scripted information and respond effectively to questions from the audience.</td></tr><tr><td>5</td><td>Present with clarity, demonstrating high quality expression utilising logically structured arguments.</td></tr></tbody></table>	No.	Learning Outcome assessed	1	Demonstrate compassion and empathy for, and an ability to work professionally with your chosen population group.	2	Through the application of a structural analysis of the policy initiative discuss its impact on service users.	3	Advocate for at least one change that could be made to the social policy that aligns with social work ethics and if implemented by government could potentially transcend oppressive conditions impacting on service users.	4	Demonstrate high quality oral presentation skills, engaging the audience with compelling non-scripted information and respond effectively to questions from the audience.	5	Present with clarity, demonstrating high quality expression utilising logically structured arguments.

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Blackboard, are electronically checked through SafeAssign. This software allows for text comparisons to be made between your submitted assessment item and all other work that SafeAssign has access to.

10.2. Assessment: Additional Requirements

Your eligibility for supplementary assessment in a course is dependent of the following conditions applying:

The final mark is in the percentage range 47% to 49.4%

The course is graded using the Standard Grading scale

- 10% (of the assessment task's identified value) for the third day - 20% (of the assessment task's identified value) for the fourth day and subsequent days up to and including seven days from the date identified as the due date for the assessment task.

- A result of zero is awarded for an assessment task submitted after seven days from the date identified as the due date for the assessment task. Weekdays and weekends are included in the calculation of days late. To request an extension you must contact your course coordinator to negotiate an outcome.
