

Manage

people effectively by understanding how they think and behave

Bachelor of Business (Human Resource Management) / Bachelor of Social Science (Psychology)

To manage staff properly, you need to understand them. This degree gives you a deep practical understanding of how people work, and how to create a business environment conducive to individual success. You'll gain a strong foundation in the fundamentals of business, with a focus on human resource management, including areas such as workplace relations, staffing and remuneration, training and development, leadership and team dynamics, and managing organisational change. You'll also learn about human behaviour and cognitive, social, physiological and intercultural psychologies.

In this degree you will:

- Develop specialist skills through your understanding of the key areas of human resource management
- Gain practical experience in the human resources sector through an elective internship
- Learn fundamentals of business such as economics, management, marketing, research methods, accounting and informatics
- Participate in paid research assistant work relating to psychology in your second or third year of study

Career opportunities

- Human resource management
- Recruitment
- Staff development and training
- Employment relations
- Change management

- Organisational development
- Health and education services
- Disability services
- Community work

Accreditation

This program is pending accreditation with the Australian Psychology Accreditation Council (APAC). Following successful completion of an accredited honours year – plus further accredited postgraduate study following the guidelines of the Psychologists Registration Board in their state or territory – graduates may be eligible for registration as a psychologist in that state or territory. Upon graduating, you may also be eligible to join the Australian Human Resources Institute.

Please note:

In 2021, all first-year courses in this degree will be available online. Second-, third- and fourth-year courses will be offered online progressively from 2022 onwards. If you wish to study online and are intending to apply for credit for previous studies, please contact Student Central to discuss your options. Please note that some online courses may require some attendance at a USC campus to support your learning.
