Program requirements and notes

In order to graduate you must:

- Successfully complete 288 units as outlined in the Program Structure
- Complete no more than 10 introductory level (100 coded) courses

Program notes

- Completing this program within the specified (full-time) duration is based on studying 48 unit points per semester (normally 4 courses) and following the recommended study sequence
- The unit value of all courses is 12 units unless otherwise specified
- It is each students responsibility to enrol correctly according to your course requisites, program rules and requirements and be aware of the academic calendar dates
- Courses within this program are assessed using a variety of assessment methods which may include essays, seminar presentations, reports, in-class tests and examinations
- As part of your UniSC program, you may apply to Study Overseas to undertake courses with an overseas higher education provider
- Only a full-time study option is available to international students on a Student Visa
- Refer to the Managing your progression page for help in understanding your program structure, reviewing your progress and planning remaining courses.
- The Exercise and Sport minor, Public Health Nutrition minor and Indigenous Health Wellbeing Minor will be progressively rolled out at Moreton Bay (offered fully in 2025).
- Students undertaking the Exercise and Sport Minor must complete SPX211 from the required discipline select from list in program.
- Students who wish to apply for entry into the Masters of Dietetics (Sports Nutrition) will need to complete NUT333 Health Research Design and SPX211 Exercise Physiology I from the required discipline select from lists in program. It is highly recommended that students also select Exercise and Sport Minor.

WIL notes

- This program includes placements in settings that may require COVID-19 vaccination with limited placement in setting that do not require full vaccination.

usc.edu.au/sc354

University of the Sunshine Coast | CRICOS Provider Number: 01595D | Correct as at 3 May 2024

Study options and teaching period of offer can vary depending on the study location. For full details, visit usc.edu.au.

- It is a Queensland Government requirement that students undertaking a placement within a clinical setting are fit tested annually for an approved respirator. Clinical settings include hospitals, residential aged care facilities, residential disability care facilities, prison health services, youth detention health services, community health care settings, and vaccination clinics). If the Fit Testing requirement applies to placement activity within your Program it will appear in your mandatory checks on Sonia Online. In accordance with Australian Standards, you must be clean shaven for your fit test. Facial hair that lies along the sealing surface of a tight-fitting respirator prevents an effective seal. Therefore, it is a requirement that there is no hair growth between the skin and the facepiece sealing surface in order to achieve a fit. At this stage, there is no exemption in Queensland to this requirement for religious or other reasons and USC is unable to waive this requirement.
- For more information on mandatory requirements refer to Nutrition - Placement
