

# Master of Climate Change Adaptation by Research

LOCATION	START
Sunshine Coast	
Fraser Coast	
Gympie	
Caboolture	

Lead the fight against climate change. Climate change is increasingly seen as a major threat to the health of the planet, with long-term hazards and implications for many communities.

In this program you will:

- Look deeply at the social, cultural, political and economic impact of climate change
- Focus on people who live in areas where climatic conditions threaten water and food security, public health, public amenities, quality of life and living conditions
- Via research, develop an appreciation of international and national obligations and trends in the assessment and management of climate change
- Discover how to effectively examine complex agricultural, industrial, infrastructure and urban development proposals to meet predicted impacts of climate change

## Career opportunities

- Climatologist
- Climate scientist
- Climate policy analyst
- Environmental consultant
- Resource manager

## Accreditation

Graduates are eligible to apply for professional accreditation as an environmental practitioner with the Environment Institute of Australia and New Zealand (EIANZ).

CRICOS Code  
063014F

## Duration

2 years

Only a full-time option is available to international students on a Student visa. Online programs are not available to Student visa holders.

## Indicative 2025 fees

A\$31,030

Annual fee

Tuition fees are reviewed each calendar year. The fee you must pay for a given teaching period is that which has been approved by UniSC for the calendar year in which the teaching period commences

## Delivery mode

internal, external,

## UniSC program code

SC810

## Program structure

A Higher Degree by Research (HDR) is a supervised research program that requires undertaking original research, resulting in a thesis, or a thesis and exegesis.

During the Master by Research program, Master by Research candidates are required to achieve several milestones that relate to their research training.

Milestones are program requirements and periodic assessments of candidature progression. Milestones are distributed throughout HDR candidature providing structure and mechanism for regular review and feedback on progress towards both the research project and attainment of the University's Research Graduate Attributes.

In addition to HDR program milestones, some candidates may also have:

- project milestones (such as external progress reports to third party funding providers) that they are required to contribute to; and
