

Become a next-level business

leader

Master of Management

The Master of Management is from a broad range of industries and fields who want to enhance their strategic and operational management skills. It gives you strong foundation across all areas of contemporary management, including strategy, leadership, marketing, informatics and project management.

In this program you will:

- Improve your ability to evaluate business decision-making through real world business problems and case studies
- Develop your skills in managing people and teams
- Choose to hone your knowledge through a range of specialist courses in entrepreneurship and innovation, health sector management, supply chain management, international business and more

Admission requirements

- Completion of a recognised Bachelor degree from a recognised higher education institution, or equivalent.
- Students admitted to the program with a completed AQF level 7 Bachelor degree or equivalent in Business are eligible to have the volume of learning in this program reduced by 48 units.
- Applicants from a non-English speaking background must demonstrate an appropriate level of English proficiency. Refer to the English language requirements
