

# Explore

a scientific career  
in just one year

## Diploma in Science and Technology

Do you like technology and solving problems? Or do you just love learning about how the world works? In this one-year program, you'll explore the role science and technology play in our everyday lives, and how data can be used to solve real-world challenges.

You'll study foundation courses in core scientific fields like biology, chemistry and ecology, as well as 'Big Idea' modules that introduce you to the cutting edge of science, research and technology. You'll also work in the lab and in the field to build your skills in investigation, presenting data and critical analysis.

Explore your career options with elective courses in Environmental Science, general Science or Animal Ecology, and learn how to use technology to achieve your study and career goals.

On successful completion of the Diploma in Science and Technology, you will receive direct entry and up to 96 units of credit towards your choice of the following degrees:

- Bachelor of Science
- Bachelor of Environmental Science
- Bachelor of Animal Ecology

### LOCATIONS

Sunshine Coast  
Moreton Bay

### QTAC CODE

013181  
014171

### COMMENCE

Semester 1, Semester 2
